**Creating the basis for coexistence,
respect and cooperation**

2018-1-RO01-KA229-049097_2

BUILD TOGETHER TO KNOW AND COLLABORATE

One of the most significant experiences of the Project was the creation of a large puzzle inspired by "The Tree of Life" by Gustav Klimt. Joining the pieces of the puzzle symbolically have been joined our paths which, although of different colors, have found and will in the future find the same path that unites us and that makes us live together far or close.

Purpose of the Project

Know and study the traditions, customs and lifestyles of the partner countries.

...

Knowing cultural identities, we have created the basis for coexistence, respect and cooperation.

Specific goals

1. cultural awareness and acceptance of social, national and cultural diversity
2. communication and collaboration between pupils and teachers from different countries
3. improvement of transversal skills and in the use of ICT
4. language skills (English and languages of the countries involved)
5. development of critical thinking and creativity
6. increase in self-confidence and in one's potential
7. exchange of experiences and good practices between teachers involved in the project

Outcomes of the Project

At the conclusion of the project, the participants achieved the following results:

- greater openness to "the other"
- knowledge of the European cultural heritage, better linguistic and critical thinking skills
- greater autonomy and a sense of responsibility
- knowledge of partner schools
- greater cooperation between teachers of European schools

Staff meeting

As part of the Project, workshops were held on various topics functional to the enrichment of teaching professionalism. The debates were attended by great professionals from each country, such as the Indian international expert Sugata Mitra, a scholar of educational techniques, Manuela Prajea, a Romanian teacher in the USA and Carlo Mazzone, an Italian ITC teacher, the latter receiving the *Global Teacher Award*.

Products realized

- collections of legends, songs, pastimes and traditional games of each participating country
- multimedia presentations relating to the historical and geographical aspects of the various countries
- products made by pupils and teachers of partner schools during the mobility
