INTRODUCTION

Hello dear partners! Summer holidays have been a pleasant break but, with the school starting, here we are again! September was a month full of activities for our school, particularly to organize the welcoming of the new students but not only for this, even for our Erasmus project, to let it grow UP, UP AND UP! Are you curious to know our activities?! So, let's start the show!

SPORT CLUB

Our school has registered to the “European School Sport Day” too in order to create special moments of sport activities among students, thanks to our Physical education teacher.

The infographic features a background image of a young girl in a white shirt and blue shorts participating in a physical activity on a wooden floor. The text is arranged in a clean, modern layout with various icons and a date box.

European School Sport Day

#BEACTIVE
European Week of Sport

EUROPEAN SCHOOL SPORT DAY (ESSD)

- Pan-European initiative to promote physical activity
- Annual school sport day
- 120 minutes of physical activity
- Schools design their own Day

27.09.2019

Co-funded by the Erasmus+ Programme of the European Union

Pupils and students performed an activity called "acrosport" or "acrogim" which involves the performance of exercises and figures realized through a precise postural work. It takes place in pairs, in trios or quartets, a sort of "team" where teamwork prevails, mutual trust and the responsibility of each towards the other companions but where individual contribution is essential. The activity is always very welcome to the students who, while having fun, train strength, agility, fluency, balance in a climate of trust and collaboration.

DANCE CLUB

The “Welcoming” project is considered a strongly felt moment of our institute for the successful start of the new school year. It aims to welcome new students and consolidate the sense of belonging of those already attending, making them feel accepted and loved. The new students have been greeted by an initial parade in which the majorettes and the flag wavers parade, from gymnastic choreographies, spontaneous dances, folk dances, songs, all accompanied by the presence of our Major and our local Councillors.

MUSIC CLUB

Our school celebrated the International music day remembering two great figures of Italian music: a famous composer, Antonio Vivaldi, and a famous singer, Domenico Modugno. Our music teachers guided students of 7 grades realizing two video: one on the 4 famous concerts called “Le Quattro stagioni” composed by Vivaldi and played by students with the flute, the other on the famous song “Volare” sang by Domenico Modugno, performed with voice by our students.

ART CLUB

Our Art teacher worked with our students for the realization of a banner of welcome.

The whole banner was made by the pupils belonging to the 8th grade, using a long blue cloth cover, to which have been applied the letters drawn and cut out on cards (50x70) of various colors.

In this way it was possible to make flexible the banner that was brought into the parade during one of the moments of the show organized for the welcoming.

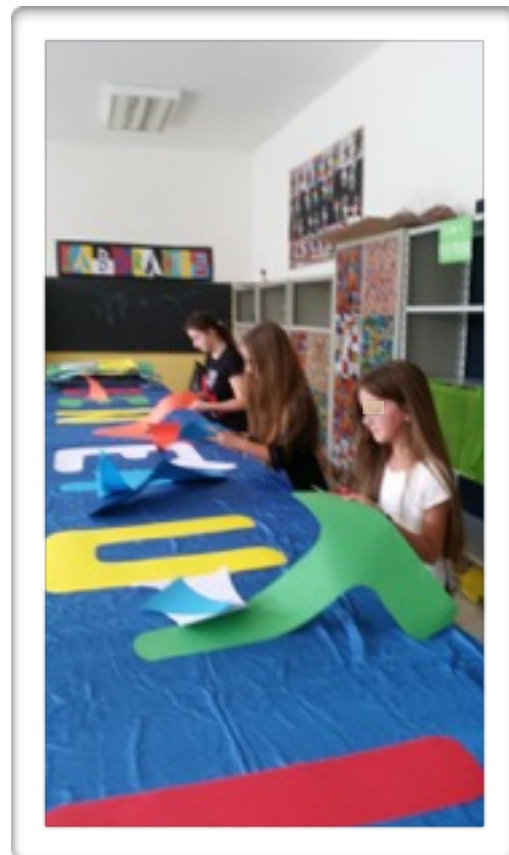

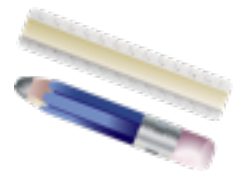

PHOTO CLUB

During summer holidays our students of 7th grades had the task to take some pictures of typical Sicilian landscapes and view of the sky from different places and part of the day: this is a selection of some of them.

Our school, thanks to our Art teacher, realized too an Erasmus corner with a collection of photos from the previous meeting in Turkey, Italy and Poland. We will fill it with the other photos we will take from Romania and Bulgaria. Students can remember all the best moments of our project and be proud of their school!
